

(F#)Holy lamb
see the world we started
is it so I(D#m7)ow again
like a light that's lost up(C#)on the stage
so the more it sh(H)ines, it goes away

(F#)Surely then
see the curtain rising to show us (D#m7)once again
all the magic of the (C#)earth and the skies
see the more we find
(H)the more we realize

That (F#)every time
see the laws of nature keeps telling us
(D#m7)like a friend
it's the spirit of emotion (C#)dancing to the wind
high above
high above
so (Hmaj7)sure inspired again

I can tell a new (F#)story now
can we see through this mask of uncertainty
(D#m7)surely now
how can it be so hard when (C#)all there is to know
don't be afraid of letting go
it takes a (Hmaj7)loving heart
to see and show
this love
for our own ecology

(F#)Hold the light
hold the light
out of (D#m)love we'll come a long long
glorious way
at the (C#)start of every day
a child begins to play
and all we (Hmaj7)need to know
is that the future is a friend of yours
and mine
