This will fall away, this will fall away

You're getting closer, to pushing me off of life's little edge
E F# D E
Cause I'm a loser and sooner or later you know I'll be dead

You're getting closer, you're holding the rope and I'm taking the fall
E F# D(hold)
Cause I'm a loser, I'm a loser

Verse 2

F# D F# D
This is getting old, I can't break these chains that hold
F# D F# D
My body's growing cold, there's nothing left of this mind or my soul

Addiction needs a pacifier, the buzz of this poison is taking me higher
F# D F# D
And this will fall away, this will fall away

Repeat Chorus

Interlude (Distorted) F# A C B E F F# Their is a quick silde from the C to the B. You repeat this 7x but on the last time they stop and hold out E and return to the chords used during the verse as they do a short solo.

Repeat Chorus 2x

That's pretty much it just listen to the song to get it's rhythm and you've got it. Enjoy!
