

*Am*

Nothing I must do

*Dm*

Nowhere I should be

*E*

No one in my life

*C*

To answer to but me

*Am*

No more candlelight

*C*

No more purple skies

*Dm*

No one to be near

*E*

*Am*

As my heart slowly dies

*C*

*D*

If I could hold you one more time

*G*

*C*

Like in the days when you were mine

*F*

*G*

I'd look at you 'till I was blind

*E*

So you would stay

I'd say a prayer each time you'd smile

Cradle the moments like a child

I'd stop the world if only I

Could hold you one more time

(Hmmmmmm)

I've memorized your face

I know your touch by heart

Still lost in your embrace

I'd dream of where you are

(Music break)

(Hmmm)

If I could hold you one more time

Like in the days when you were mine

I'd look at you 'till I was blind

So you would stay

I'd say a prayer each time you'd smile

Cradle the moments like a child

I'd stop the world if only I

Could hold you one more time

One more time
