He's gone, gone, Quickfade

A Asus4

It's gone, gone, Quickfade

QUICKFADE

Time, time on your mind

A conscience ticking

Images passing by like picture slides arranged

Love will survive

It twists and turns you

A circuit inside your head reminds you that it's fine

I miss you more than words can say

A part of me has torn away

A china heart will always break

A fracture to a twisted face

But things are gonna heal again

Eyes once blind will see again

I miss you more than words can say

I miss you more than words

Quickfade

Try, learning to fly

Reach new sky

Find a new place to be and watch life pass you by

Try to get high

Jumped so you could feel it...

You're living inside a dream

As waterfalls surround

I miss you more than words can say

A part of me is torn away

China hearts will always break

A fracture to a twisted face

But things are gonna heal again

Eyes once blind will see again
I miss you more than words can say
I miss you more than words
Quickfade...fade, fade, fade...

Glide, Glide over tides
And waves that pull you
Oceans divide us once and bring you home again

Love will survive
It twists and turns you
He's gone, gone, Quickfade
Its gone, gone, Quickfade...

I miss you more than words can say
A part of me is torn away
China hearts will always break
A fracture to a twisted face
But things are gonna heal again
Eyes once blind will see again
I miss you more than words can say
I miss you more than words
Quickfade
