I wanna read in your eyes
that you say yes when you say no

I wanna take a step across this line
till you can feel my love

G#m E B F#
you open the door and it hits to the core

Ain't got no pearls or diamond rings
I only got my heartbeat

but it won't be long and i will wait
and melt inside your heart

you opened the door and it hits to the core

G#m F# E F#
we went too far way too far
G#m F# E E
there's no turning back this time
G#m F# E F#
we went too far way too far
C#m F# G#m
and you're gonna be all mine

we went too far,way too far
it can never be too far
we went too far,way too far
to find nothing but real love
